

Candidate Name: Mike Rogalski

Office Seeking: Ward 3

Q1. Bicycling/walking and bike/pedestrian infrastructure enhances quality of life and addresses issues such as affordability, equity, access, health, and the safety of our streets. What can the City of Cleveland and you as an elected official do to actively encourage more people to bike and walk?

A1. Additional subsidization and capital investment in multi-modal transportation and infrastructure.

Q2. People bike and walk when it's safe, comfortable, and connects to the places they need to go. Cleveland's bike infrastructure is still disjointed. In your opinion, where are the most urgent gaps in our bike network and what steps do we need to take to close these gaps?

A2. Gaps are many and varied. Very basic things such as potholes and dangerous pavement, sidewalks, and trails must be addressed immediately.

Q3. Cities across the country are installing protected bike lanes, bike lanes with physical separation between bike and automobile traffic, to encourage more people to ride and make roadways safer for all users. Do you support the installation of protected bike lanes on Cleveland's streets? Please explain why.

A3. Yes. I support safe and multi-modal forms of transportation.

Q4. People take public transit when it's frequent, fast, reliable, safe, clean, and comfortable. The NextGen bus system redesign goes a long way to improving on this, but there is still much to be done. In your opinion, what steps do we need to take to close these gaps?

A4. Service should not exceed 30 minute intervals. Additional capital and operational investment is needed.

Q5. Public transportation riders want a safe and comfortable place to wait for their bus or train and easy access to get there. Yet, often a bus stop is little more than a sign and pole stuck in the middle of a treelawn. How would you work to improve bus shelters and train stations and the sidewalks and pathways to get there?

A5. Shelters and stations, particularly high usage shelters, should be heated and air conditioned.

Q6. About 25 percent of Cleveland households have no access to an automobile, and are dependent on public transportation/biking/walking. Peer cities are advancing multimodal transportation to improve safety, access to jobs, community health, the environment, and attract population. Have you ever been transit-dependent or car-free? What's your vision for public transportation and increased active transportation in Cleveland, how will you advance it, and how will you keep it functional year around?

A6. I have been transit dependent. I grew up in poverty with a non-existent family support system. RTA buses and trains were my only form of transportation during high school and during undergrad at Cleveland State. I did not have a car nor could I afford one. Additional capital and operational investment is needed in multi-modal transportation as well additional subsidization of fares.

Q7. Fare revenue makes up about 10% of all funding for GCRTA while the agency spends \$1.8 million on police fare enforcement. Meanwhile, agencies like LA Metro and Kansas City are exploring free fares and other systems such as in Pittsburgh have introduced low-income fare discount programs. How much would you personally pay to ride public transit to work? How fast would you expect the trip to be door-to-door?

A7. Public transportation should be as cheap as possible for everyone, particularly for the low-income and other vulnerable segments of the population. Service intervals should not exceed 30 minutes at the most. Reliance on fares for significant revenues is untenable.

Q8. Vision Zero is the principle that transportation should focus on safety of all road users (cyclists, pedestrians, transit users, and motorists) as a foundation, and that the only acceptable number of deaths on the road is zero. The City of Cleveland is in the process of creating a Vision Zero Action Plan and committing to eliminating all serious injury and fatal crashes in the City. Do you see Vision Zero as a priority and how will you advance it?

A8. Yes, I support Vision Zero. I will support and advance legislation on council that protects our citizens.

Q9. The HealthLine, as originally planned and operated, used what's called a "proof-of-payment" fare collection system, which GCRTA enforced with armed police until the practice was declared unconstitutional in 2017. In response, CPT has called for the creation of a transit ambassador program consisting of unarmed, non-deputized civilians to conduct fare enforcement but also to serve as another set of eyes on the ground and a smiling face to help guide riders, similar to the Downtown Cleveland Alliance Ambassadors. Do you support the creation of a transit ambassador program as CPT has proposed?

A9. Yes

Q10. Fare evasion is currently a 4th degree criminal misdemeanor, punishable up to 30 days in jail and up to \$250 fine while parking tickets are treated as civil offenses, not criminal offenses, with a small fee and no jail time. Do you support decriminalizing fare evasion?

A10. Yes

Q11. There was a racial reckoning in 2020. How do you envision working toward safe streets for biking, walking and public transportation users while also reducing the dependence on armed officers to enforce traffic laws?

A11. Yes. I support the creation of a Civilian Peace Department staffed with social workers, therapists, and other mental health professionals. I also support police and our local departments. We must work with police for better outcomes, not alienate them. We are in this together.

Q12. Do you oppose or support a property tax levy in Cuyahoga County to raise additional funding for GCRTA?

A12. Support

Q13. Do you oppose or support a sales tax levy in Cuyahoga County to raise additional funding for GCRTA?

A13. Support

Q14. What should GCRTA's top priority be with any additional funding secured?

A14. Additional investment in day-to-day operations, service expansion, and capital investment in infrastructure.

Q15. Suburban sprawl has been a major theme in greater Cleveland's decades of decline, and as the population spreads out, maintaining transit service becomes less efficient. How will you proactively integrate land use policies into your transportation agenda?

A15. I support density, multi-use development, multi-modal development, and multi-modal transportation.

Q16. The current GCRTA board president and city of Cleveland appointee, Rev. Charles Lucas, is a regular paratransit rider and the newest member of the board and Cuyahoga County appointee, Roberta Duarte, is a regular bus rider. CPT believes it is important that these voices are represented

on the board of trustees and would like to see more riders appointed to the board. The city of Cleveland has the largest share (4) of appointments to the 10-member board. Will you commit to appointing more riders to the GCRTA board?

A16. Yes.

Q17. People care about street safety and bicycling, transit and walking issues. Why should these voters vote for you?

A17. I believe in healthy urban environments that promote equity, diversity, and sustainability. The region is only as strong as our urban core. And a healthy urban core includes: density, multi-use, multi-modal uses.
